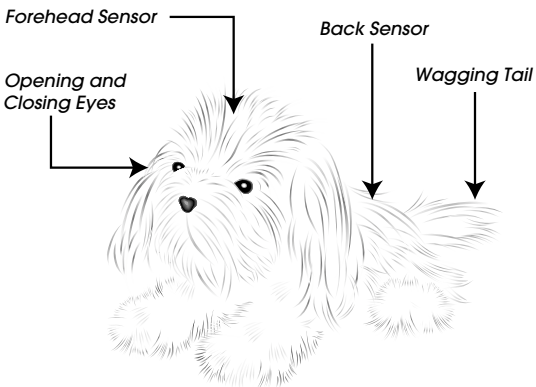
GETTING STARTED

Your FURREAL FRIENDS My Lost Little Pup consists of the following parts:

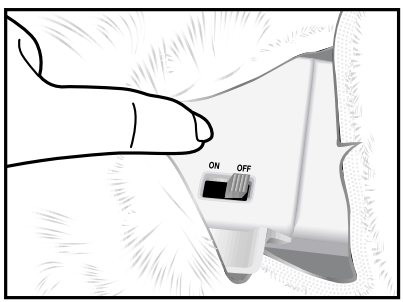


Your puppy makes a variety of realistic barking, panting, and whimpering sounds to let you know when he is happy, playful, sleepy, or needs some love and attention!

HOW TO PLAY WITH MY LOST LITTLE PUP

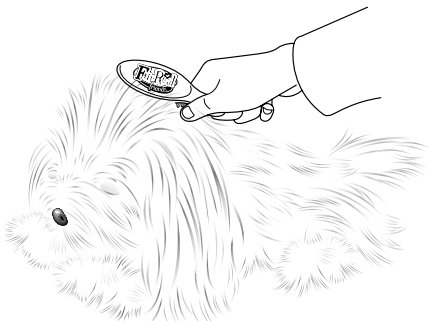
In the first few days of getting your puppy you will need to pet and brush him with his brush to make him happy and pretty. As you interact with him you will be able to watch him progress and become happy through his various stages.

To turn your My Lost Little Pup ON, pull back the plush flap over the battery door and switch the ON/OFF switch to ON. Then replace the flap.



BRUSH YOUR PUPPY!

Your puppy comes with a special brush so that you can make him look adorable! Be sure to brush your puppy's fur every day and he will be happy!



Your puppy is like a real puppy in many ways. Show him lots of love and affection to keep him happy!

SLEEPY

Once turned on, your sleepy My Lost Little Pup will begin to wake up. Pet him on his back and he will start to gently move his body to an upright position, whimper, and then gently move back down to his resting position. Now it's time to play with your puppy!

WAKING UP

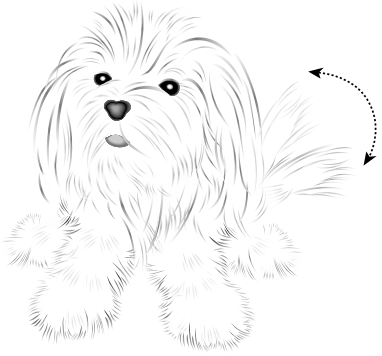
Your My Lost Little Pup is still very tired and has his eyes closed! You'll need to spend some time giving your puppy lots of love and affection by petting or brushing his fur. Listen carefully as he whimpers and begins to wake up.

ALERT AND AWAKE

Continue petting and brushing your puppy and watch as he begins to sit up and his eyes start to open. Listen to him bark happily while you are taking care of him!

HAPPY

Your puppy will be so happy now that you have given him a home and are taking care of him that he will sit up in a full upright position and wag his tail excitedly. Listen to him bark and watch as his eyes open all the way!



NOTE: Please remember to turn the ON/OFF switch to the OFF position if he will not be played with for a while, to conserve battery life. If you do not play with your puppy for a few days, he will become sad and look for your attention. It may take him a day to reach his happy state once again.
